

Simple Feeding Guide

Your veterinarian has recommended a formula to nutritionally manage and support your dog through his or her health condition. Below, you'll find everything you need for feeding instructions and more.

PET'S NAME

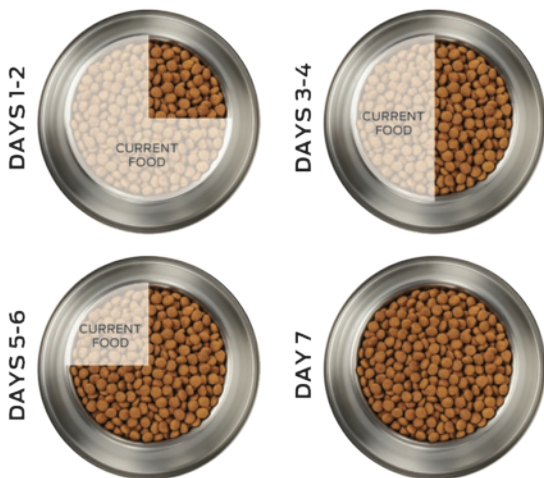

FORMULA PRESCRIBED

AMOUNT PER MEAL

MEALS PER DAY

TRANSITIONING TO A NEW DIET

When pets suddenly switch from one diet to another, it can cause stomach upset and other issues. That's why it's important to slowly introduce your pet to this new diet over the course of 7 days.

Contact your veterinarian if you have questions or concerns.

Purina® Pro Plan® Veterinary Diets
Formulated to meet the specific needs of your dog

Supplements

CC CARDIOCARE®

Contains innovative and advanced nutrition to support cardiac function in dogs and help maintain heart structure.

EN GASTROENTERIC®
LOW FAT

Made with high-quality ingredients, including a prebiotic fiber to promote digestive health, and is low in fat for dogs who have difficulty digesting fat.

CN CRITICAL NUTRITION®

Highly digestible to promote optimal nutrient absorption. Provides essential amino acids for tissue repair.

HA HYDROLYZED®

Contains hydrolyzed protein, which is protein that has been broken down into small components to be less likely to cause an adverse food reaction in certain dogs. Highly digestible (dry) and made with high-quality ingredients.

DH DENTAL HEALTH®

Developed with a unique, crunchy kibble texture and proven to significantly reduce tartar buildup. A high-quality nutrient blend that's great for everyday feeding.

JM JOINT MOBILITY®

Contains an innovative nutritional blend that includes a high level of long-chain omega-3 fatty acids and glucosamine to help support joint health.

DRM DERMATOLOGIC MANAGEMENT®
NATURALS

Contains omega-3 and omega-6 fatty acids to help nutritionally manage dogs with dermatitis. Made with trout and oat meal, and formulated without corn, wheat, or artificial colors and flavors.

NC NEUROCARE®

Enhanced with a unique blend of nutrients (arginine, EPA + DHA, antioxidants and B vitamins) and medium-chain triglyceride vegetable oil to help support cognitive health.

EL ELEMENTAL

An amino acid-based diet formulated for dogs with food sensitivities and made with high-quality ingredients.

NF KIDNEY FUNCTION®

Made with a restricted amount of high-quality protein and restricted phosphorus to help nutritionally manage dogs with kidney conditions.

EN GASTROENTERIC®

Made with high-quality ingredients, including coconut oil or medium-chain triglyceride (MCT) vegetable oil, antioxidants, and prebiotic fiber to promote digestive health.

OM OVERWEIGHT MANAGEMENT®

Specially formulated to help dogs lose weight while maintaining muscle and to reduce the risk of weight regain (dry).

EN GASTROENTERIC®
NATURALS

Made with high-quality ingredients, including coconut oil and antioxidants. Highly digestible to promote optimal nutrient absorption. Formulated without corn, wheat, or artificial colors and flavors.

OM METABOLIC RESPONSE
+ JOINT MOBILITY

Specially formulated to help dogs lose fat while maintaining muscle. This diet also includes a high level of long-chain omega-3 fatty acids plus glucosamine to help support joint health.

EN GASTROENTERIC®
FIBER BALANCE

Made with high-quality ingredients. Includes a unique blend of soluble and insoluble fibers to support GI health and complex carbohydrates to help moderate glucose absorption.

UR URINARY Ox/St®

Made with high-quality ingredients and formulated to help reduce the risk of urinary stone formation in dogs.*
*Most struvite stones in dogs are caused by urinary tract infections. In the case of non-sterile struvite stones, it is important to discuss antibiotic therapy with your veterinarian in addition to dietary management.

Calming Care

Contains a probiotic strain shown to help dogs maintain calm behavior. Helps dogs cope with external stressors like separation, unfamiliar visitors, novel sounds, or changes in routine and location.

*Revelation Veterinary Tracker, 2023.

Skin Care

Helps maintain a protective skin barrier to support dogs with sensitive skin including those with seasonal allergies.

FortiFlora®

Contains a safe and effective strain of beneficial bacteria proven to promote normal intestinal microflora. FortiFlora is the #1 veterinarian recommended probiotic brand to support digestive health.* Also available in a chewable tablet.

*Revelation Veterinary Tracker, 2023.

FortiFlora® PRO
SYNBIOTIC ACTION

Synbiotic action of probiotics and prebiotic fiber for the management of dogs with diarrhea and to support a healthy intestinal microbiome.

Joint Care

Formulated to support mobility and normal daily activity. Contains glucosamine, collagen, chondroitin sulfate and hyaluronic acid to help maintain healthy cartilage and joints.

Multi Care
SKIN + IMMUNE + GUT

Support your dog's skin, immune and gut health with three beneficial ingredient blends in one great-tasting soft chew.

Great-tasting treat options

Dental Chewz®

These high-protein, long-lasting chews clean teeth and freshen breath. They are great tasting and work effectively to significantly reduce tartar buildup in dogs fed two treats per day.

Digestive Health Bites

Contains natural prebiotic fiber to help promote digestive health. These soft and savory chews are made with real chicken as the #1 ingredient and vitamins C & E to help support the immune system.

Gentle Snackers
HYDROLYZED + LOW FAT

A great-tasting option for dogs with food sensitivities, as well as a low-fat treat for dogs on a weight loss/maintenance program.

OraChews®
DENTAL CARE

Great-tasting, innovative chews that clean teeth, freshen breath, and support a healthy immune system.
